

OnDemand Project Management

Simplify Your Technology Projects With OnDemand

Implementing new technology services can be overwhelming. Let OnDemand's experts serve as your advocate and guide during technology projects to help simplify the process – so you can get back to business quicker.

What Does Project Management Offer?

With OnDemand Project Management, you get:

A remote project manager as your single point of contact

Coordination with vendors for a seamless installation

Regular updates on your orders and project status

Project design, planning, and go-live conference calls

Follow up on any open items that need resolution

Invoice review to ensure accuracy post-implementation

Why OnDemand?

OnDemand goes above and beyond standard project management services.

We promise to deliver:

- ✓ Experienced project managers who do the job right and on time
- ✓ Flexible scheduling – we'll be here whenever you need us
- ✓ U.S.-based support professionals for easy communication
- ✓ Worksheet completion to save you time and meet carrier standards
- ✓ Service changes as needed for two weeks following implementation
